The amendment received 3 April 2006 has been made of record. Claims 1-23 are pending.

The objection to the abstract contained in the previous office action is withdrawn in view of applicants' amendment.

Claims 1-23 are rejected under 35 U.S.C. 102(e) as being anticipated by Yuki et al.

This rejection is maintained substantially as set forth in the previous office action. Applicants have alleged that this rejection was based on matter new to the Yuki et al patent. Applicants need point out specifically what matter is new. Applicants have argued that the reference is lacking regarding a teaching of their monomer c and point to monomer m of the reference having a carboxyl group. The examiner however, pointed to monomer c of the reference as the carboxyl containing monomer.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
